FOR IMMEDIATE RELEASE

PAYNE USA ACQUIRES AQUAMOR CORPORATION

Payne USA announces the acquisition of Aquamor Corporation effective May 26, 2011.

Aquamor Corporation, formally known as Plymouth Sales, is one of the oldest and best-known manufacturers of “Made In the USA” components for residential and light commercial reverse osmosis and filtration systems.

Michael Baird, President of Payne USA states, “This acquisition allows us to expand the Payne USA product line, and will satisfy the increasing demand for Made IN USA products. Our customers tell us they would like to buy Made IN USA products, however it is to increase its distribution base, and expand its core of water filtration products
